Sam02582007, Missing Feature I can record just fine with my Camera however, I can't hear anything until I Finish Recording!It would be nice if this app had a Feature where you can hear the sound before you Record too.. Debut Video Capture Software Debut Video Capture Software for Mac is a screen recording app that allows you to easily record and capture video from any webcam, recording device, or screen.. After reading both positive and negative reviews for the Pinnacle Video Capture for Mac, I decided to take a gamble for \$100 and give it a try.. Kiddailey, Works great but is crippled This app is nice and works well However, it has been severely crippled as compared to the free non-commercial version available for Windows and the fully purchased version.
